MEMORANDUM FOR: Executive Secretary, CIA Management  
Committee

Bill:

1. The attached letter indicates that once more we are not communicating too well with John Eisenhower. We did express our views on the draft quarterly report forms, but since the rest of the Committee apparently goes along with John we accept the decision. I also accept the fact that the President means business, and I am sorry that John is unhappy about our expressing our views. All of this is separate from the problem that went to John Ehrlichman on the review of our sources and methods by the Committee.

2. I hope this does not blow up into a serious issue.
